- * Notes:
- **Estimate does not include travel and expenses, which will be billed separately to Customer, as incurred. Shipping, Customs, Import Taxes, and/or Brokerage fees will be billed separately to Customer, as incurred.**
 - Quoted amounts are estimates based on preliminary Customer scoping data and Paciolan site assessment visit if it has occurred. Revisions may be applicable based on the site evaluation and/or additional Ticketing/Operations/IT context details finalized during implementation planning.
 - For functionality using cards with magnetic stripes or barcodes, solution costs may increase for unplanned requirements related to new/unique data retrieval formats from card information, specialized operating procedures, and/or custom processes with patron data import or ticket delivery.
 - Scope of work is completed in phases for multi-venue/multi-activity implementations.
 - Target Go-Live dates and on-site event support are subject to mutual agreement and Paciolan availability.
 - Customer will provide venue infrastructure for proper installation, operation, and storage of equipment, and for data network connectivity to user locations. This may require Customer to procure and install other necessary data cabling, electrical wiring, conduit, switches /routers/hubs, firewalls, etc.
 - Customer will install wireless network equipment at mutually agreed locations to ensure sufficient signal coverage. Assembly and positioning of access points & antenna kits will be directed by Paciolan during system implementation. Otherwise, if Customer has elected to supply and manage all wireless network components, the wireless configuration must provide suitable signal coverage and system connectivity.
 - Paciolan supports the performance of the Access Management solution only with system hardware and software configurations supplied by Paciolan. The system is delivered with components setup for single-purpose use. In order to assure compatibility, any equipment or system configurations from other sources must be endorsed in advance by Paciolan. Installation and troubleshooting support for components, setups, or alternative uses not supplied by Paciolan will be limited and may incur additional costs.
 - All additional expenses incurred by Paciolan and charged to Customer shall be subject to Section 5(D) of the Master Software and Services Agreement effective as of July 1, 2012 between Paciolan and Customer.
